Microsoft BPOS & Office 365

MigrationWiz is a complete cloud-based migration solution that helps companies move from existing to new messaging systems seamlessly & affordably.

### Core

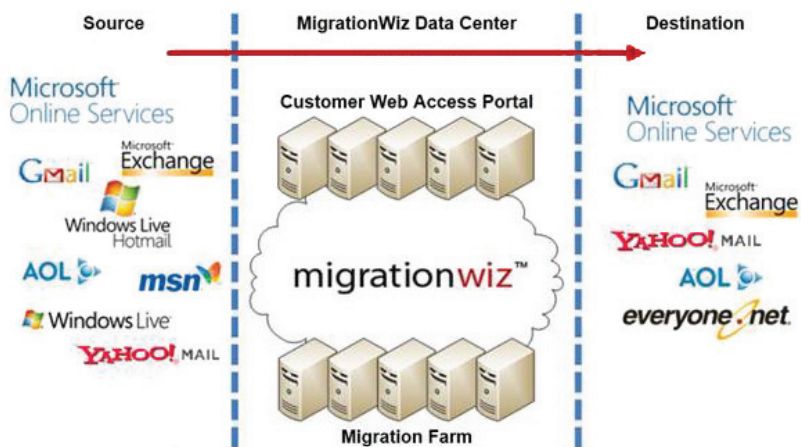

Based in central London, Core Technology Systems (Core) provides consulting, development, and support services across multiple Microsoft product lines. Core specializes in Microsoft SharePoint, System Center and Online Services (including Office 365 and Windows InTune). With over 20 years of experience, Core helps clients in several industries leverage technology to increase productivity and competitiveness. Working with a diverse set of customers has allowed the company to develop a deep understanding of industry-specific challenges. Thousands of information workers rely on the technology, knowledge and hands-on skills that Core provides to its customers.

As a Microsoft Gold Certified Partner, Core is a recipient of Microsoft's highest certification level. So far, the company has obtained four Microsoft Gold Competencies: Portals and Collaboration, Content Management, Digital Marketing, and Search. In addition, Core was selected as a launch partner for multiple Microsoft product releases. More information about Core can be found at [coregb.com](http://coregb.com).

### The Challenge

Core's clients include both small companies and large organizations from a wide variety of industries. As a result, the company manages projects that vary greatly in size and involve a very diverse set of email platforms. Core was therefore looking for a migration solution that would work across all projects - each with unique technology and business requirements. After experimenting with Microsoft Office 365's online migration tool, Core decided it was time for a battle-proven migration solution that would provide additional control and be compatible with a large variety of systems.

MigrationWiz is a complete cloud-based migration solution that helps companies move from existing to new messaging systems seamlessly and affordably.

### The MigrationWiz Solution

Leveraging MigrationWiz's patent-pending technology, Core was able to easily migrate mailboxes between Microsoft BPOS, on-premise Exchange, Office 365, and Google Apps/Gmail using one simple interface. Using MigrationWiz's web interface, Core consultants were able to easily configure the source and destination messaging systems. MigrationWiz provided Core with a self-solution that facilitates the migration configuration process while allowing consultants to submit and monitor mailboxes on demand.

"MigrationWiz has made migrating companies to Office 365 a lot easier" said Cathal Callanan, cloud consultant at Core. Callanan not only found MigrationWiz to be easy to use but also dependable. "We have not lost one email during the migration of over 1,000 mailboxes." Core now routinely uses MigrationWiz to accelerate migration projects, allowing its consultants to spend less time on performing the actual migration and more time on planning other aspects of a transition.

### About MigrationWiz

MigrationWiz is a complete cloud-based migration solution that helps companies move from existing to new messaging systems seamlessly and affordably. With no hardware or software to install, the patent-pending technology is a solution designed to meet the needs of individuals, IT administrators, consultants, system integrators and service providers interested in migrating mailboxes. MigrationWiz is a trusted brand in over 50 countries by global Fortune 500 organizations, governments, healthcare providers, and more. Customers can sign-up, configure and initiate migrations in a matter of minutes with no prior experience. For more information, visit [www.migrationwiz.com](http://www.migrationwiz.com).
